Professional Summary

Emerging Network Engineer with a solid foundation in networking principles, having recently completed the Cisco Certified Network Associate (CCNA) and holding the CompTIA Security+ certification. My practical experience includes laboratory work focused on VLAN setup, OSPF configuration, IP addressing, and ACL management. I am currently studying for the Cisco CCNP, with plans to obtain it in the next five months. My recent experience also includes conducting QA testing on software with APIs, enhancing system reliability and performance. I am passionate about optimizing network efficiency and ensuring robust security protocols in diverse environments.

Personal Information

As an entrepreneur, I am passionate about initiating and completing projects that have a broad impact. I have a strong love for cybersecurity and everything related to systems. Currently, in my spare time, I am studying for the Cisco CCNP ENCOR certification and will be taking the exam in the next couple of months. Entrepreneurship is not just about doing business or projects, but also about studying and keeping yourself updated.
